DATE MAILED: 07/12/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

**Office Action Summary**

Application No.

10/767,623

Applicant(s)

HSU ET AL.

Examiner

Khiem D. Nguyen

Art Unit

2823

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 28 January 2004.  
2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.  
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

- 4) ☒ Claim(s) 6-13 is/are pending in the application.  
4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.  
5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.  
6) ☒ Claim(s) 6-13 is/are rejected.  
7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.  
8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

**Application Papers**

- 9) ☐ The specification is objected to by the Examiner.  
10) ☒ The drawing(s) filed on 28 January 2004 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).  
11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

**Priority under 35 U.S.C. § 119**

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).  
a) ☒ All b) ☐ Some \* c) ☐ None of:  
1. ☐ Certified copies of the priority documents have been received.  
2. ☒ Certified copies of the priority documents have been received in Application No. 10/144,121.  
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

**Attachment(s)**

- 1) ☒ Notice of References Cited (PTO-892)  
2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)  
3) ☐ Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)  
Paper No(s)/Mail Date \_\_\_\_\_  
4) ☐ Interview Summary (PTO-413)  
Paper No(s)/Mail Date \_\_\_\_\_  
5) ☐ Notice of Informal Patent Application (PTO-152)  
6) ☐ Other: \_\_\_\_\_

### DETAILED ACTION

The preliminary amendment filed on January 28<sup>th</sup>, 2004 has been entered.

#### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Cheng (U.S. Patent 6,353,999).

In re claim 6, Cheng discloses that a process for forming a semiconductor packaging substrate, comprising: forming a laminated circuit **216** having a first surface and a second surface opposite to the first surface, wherein the laminated circuit has a plurality of patterned internal metal layers **202b, 202c, 202d, and 202e** stacked up, and has a plurality of internal insulation layers **200** each of which is interposed between two adjacent internal metal layers **202b, 202c, 202d, and 202e**; forming at least one contact via (**unlabeled**) through the internal metal layers **202b, 202c, 202d, and 202e** and the internal insulation layers **200**, such that the internal metal layers **202b, 202c, 202d, and 202e** electrically connect to one another (col. 3, lines 39-55 and FIG. 6);

forming a first external insulation layer **214** (top) and a second external insulation layer **214** (bottom) respectively on the first surface and the second surface of the laminated circuit **216**, wherein the first external insulation layer **214** (top) has at least one first opening **210** and the external second insulation layer **214** (bottom) has at least one

Art Unit: 2823

second opening **212**; forming a first via **218** (top) in each of the first opening **210** and a second via **218** (bottom) in each of the second opening **212**; forming a first external metal layer **202a** on the first external insulation layer **214** (top) and a second external metal layer **202f** on the second external insulation layer **214** (bottom), wherein the first **202a** and second external metal layer **202f** are electrically connected to the internal metal layers **202b**, **202c**, **202d**, and **202e** of the laminated circuit respectively through the first and second vias, and wherein the first external metal layer has a plurality of first externally exposed areas and the second external metal layer has a plurality of second externally exposed areas (col. 3, line 56 to col. 4, line 17 and FIG. 6).

FIG. 6

In re claim 7, Cheng discloses that the forming the contact via (unlabeled) includes mechanically drilling and plating on the laminated circuit **216** (col. 3, lines 48-55).

In re claim 8, **Cheng** discloses that the forming the first **218** (top) and the second **218** (bottom) includes non-mechanically drilling an plating on the first **214** (top) and second **214** (bottom) external insulation layers, respectively (col. 3, line 63 to col. 4, line 17 and FIG. 6).

In re claim 9, **Cheng** discloses that the non-mechanically drill is selected from a group consisting of photo-via forming, laser ablating and plasma etching (col. 4, lines 3-17).

In re claim 10, **Cheng** discloses that the process of claim 6, further comprising a step of forming a first solder mask on the first external metal layer to cover the first external insulation layer and expose the first externally exposed areas, after forming the first external metal layer (FIG. 6).

FIG. 6

In re claim 11, **Cheng** discloses that the process of claim 6, further comprising a step of forming a second solder mask on the second external metal layer to cover the second external insulation layer and expose the second externally exposed areas, after forming the second external metal layer (FIG. 6).

In re claim 12, **Cheng** discloses that the semiconductor packaging substrate is a flip-chip ball grid array packaging substrate (col. 4, lines 42-45).

In re claim 13, **Cheng** discloses that forming the internal metal layers **202b, 202c, 202d, and 202e** of the laminated circuit **216** includes forming and patterning copper foils (col. 3, lines 43-55).

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Khiem D. Nguyen whose telephone number is (571) 272-1865. The examiner can normally be reached on Monday-Friday (8:30 AM - 5:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew S. Smith can be reached on (571) 272-1907. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
